## How to fit your new IX Drinking water filter In 5 easy steps ( Basic DIY Skills required)

1. Remove the iX Cartridge filter from the box and position the unit in the required area for installation.

2. Remove the iX Head from the box and attach to the top of the iX Cartridge Filter.

3. Turn off the water supply and connect the 15mm x 3/8 push fit connector to your cold water mains supply and the 1/2" x 3/8" tap connector to your cold water tap connection

\*Fitting and adapters required may vary depending on site requirements.

4. Cut the blue hose to size and connect to the inlet and outlet of the filter and the tap and mains water connectors.

5. Turn on water supply and let water run for approximately 3 mins.
